INT THE ASSOCIATED PRESS-P.M.) MASHINOTON, Feb. 15.—The Senate still finds itself burdened with the Statehood bill, and while just as anxious to dispose of it in some way, in order to proceed unimpeded with other business, it is not even as confident of being able to do so as at the beginning of last week. so as at the beginning of last week. With only fourteen working days of the session left, Senators generally feel that the matter must be gotten out of the way, but when a suggestion of this kind is made, the reply invariably is that notwithstanding the Statehood bill has held the right of way position practically during the entire session, there has been no lack of legislation, and that all bills to which there has not been serious opposition have been

Tomorrow, the Indian Appropriation Bill will be taken up again, and its consideration probably concluded. Senator Tillman has announced his intention to speak during the day in reply to Senator Spooner's recent speech on the race question in the South, and it is not improbable that a general debate may ensue, regardless of the fact that time in the Senate is quite precious just now. Saturday, a part of the day will be devoted to culogies of the late Representative Burke of Texas.

IN THE HOUSE.

IN THE HOUSE. The appropriation bills are well advanced in the House for this stage of the sersion. With less than three weeks of the session ahead, only three of the supply bills remain to be setted on. Two of these, the Naval and Fortification bills, are on the calendar, and will be passed this week. The General Deficiency Rill will follow next week. Delays on these bills in the Senweek. Delays on these bills in the Senate, however, now promise to crowd things during the final hours. The Fowler Currency Bill, which has been postponed from time to time, is to have a special rule making it a continuing order at the first opportunity this week. But if it reaches the stage of consideration, it will be sidetracked whenever an appropriation bill or conference report is ready. Consequently considerable skepticism is now manifested as to whether it will be brought to a vote.

and accordingly it was not formally laid before him, but such a suggestion may be proffered later.

If the amendment should be carried, the Statehood fight would be transferred to the Postoffice Bill, with the ducers' Association of California and California Promotion Company, urging if the fight becomes protracted. If the amendment does not prevail, the general opinion is that the Statehood State and city boards of health under advocates either will have to accept the supervision of the Marine Hospital a compromise or allow the entire Service, to the end that all danger from Service, to the end that all danger from bubonic plague may be eradicated; that all fears of infection may be removed and the confidence of the Boards of Health of other States restored, and that no injury, however, remote, may result to foreign or interstate commerce. The production further requested the Covernor of the State and the Mayor of San Francisco to join in signing the following official statement, which was done:

"SAN PRANCISCO (Cal.) Feb. 2, 1903.—As competent reedical authority has declared plague has existed to a limited extent in the restricted area known

WILLEMSTAD, Feb. 15.—There is great rejoicing among all classes here at the end of the blockade. Many sailing wessels that are lying in this port with cargoes for Venezuelan ports will leave tomorrow. A great amount of coffee is awaiting transportation from Venezuela to the United States. No one, apparently, is more glad at the raising of the blockade than those on board the blockading squadron.

CARACAS, Feb. 13.—Since 8 o'clock yesterday morning, the Venezuelans were awaiting impatiently the official intimation that the blockade had been raised. They knew that the blockade was to be raised, but no notification came during all yesterday.

This morning the British man-of-war. Tribune was still at La Guayra enforcing the blockade and preventing the fishermen from leaving the harbor. At \$20 o'clock this morning the government inquired of the United States legation whether it had received any advices, and received a reply in the negative. The government was puzzled until 11 o'clock, when the news reached Caracas that the captain of the Tribune had notified the authorities at La Guayra that the blockade was raised. At 3 o'clock this afternoon the Tribune left for Trinidad.

"I admired the chivalrous spirit which dictated this remarkably manly proposition, and after careful inquiry, suggested to Mr. Bowen that the acknowledged debts of Venezuela to Germany should be paid in five equal installments; the first, two weeks after the raising of the blockade and the remainder in four monthly installments. The unadjudicated debts and claims could then be settled by arbitration. Mr. Bowen accepted this, and it delights me to acknowledge that it is lights me to acknowledge that it is largely owing to his candor and fair dealing that the subsequent little diffi-culties were adjusted to the satisfac-tion of all concerned.

"One of the great lessons of the affair is the discipline of the American people. It has become apparent to Europe that the Americans are homogenous, and that, above all, they are actuated by a love of fair play. They would not excuse even a friend who departed from this path, as became obvious through their quick suspicions, sometimes manifest during the recordia-

sometimes manifest during the negotiations.

"The love of logic and justice is so inherent in the German character that the result of the incident will strengthen the friendship of Germany and the United States. This spirit of fair play was actively exercised at a timely moment for German interests, and will not be forgotten. That the United States should promptly repudate any attempt to capitalise in friendship has become apparent,"

BOWEN AND THE PROTOCOLS.

Work on this protocol, it is expected, will begin tomorrow, and Bowen's belief is that matters will move forward with greater rapidity than they did with the representatives of the allied nations, who were enforcing the block and against Venezuela. The negotiations with France will follow those with the United States, and so on unput the protocols with all the unaffied reditor nations are completed. SALT LAKE (Utah) Feb. 15.—The heavy fall of snow during the past week and a continuance of zero weather throughout this section has already cost the stock and sheep men of Northern Utah, Southern Idaho and Western Wyoming thousands of dollars in the loss of stock. If the weather does not soon moderate sufficiently to permit the snow in the valleys and foothills to melt, men conversant with existing conditions in the affected territory say the losses will be enormous. Today the mercury hugged the zero mark, and the predictions are for continued cold. Where it is possible, sheep and stockmen are hauling feed to their starving herus, but in most instances this cannot be done.

Word was received in this city today that cattlemen in the Shoshone district of Idaho, being unable to feed their isolated herds and in order to prevent a total loss, have been compelled to shoot their stock, the carcasses being stripped of the hide, which will be preserved and sold for leather in the spring. To what extent this practice is being indulged in is not known.

In the Ohio Valley it is sleet-ing, while farther south rain is fall-ing.

NEW SMALLPOW CASES.
Fifteen new cases of smallpox were sent to the Isolation Hospital during last week, making a total since January 1 of seventy-seven. The total number of deaths during the week was 638, an increase of 6.5 per cent. over the previous week, which the health department attributes to the "aftermath" of the coal famine. Influenza continues to spread rapidly, and manifests itself in many cases in an inflammation of the eyes, which is declared to be highly contagious.

were correct. No one made an investigation to ascertain whether or not they were true.

"Then all you have is a hand-medown statement, and when there is an executive session you are shut out," remarked Shortridge.

"Yes, sir." assented the secretary.
Conroy could not tell what amount is divided among the pilots each month. The Senate committee then made an attempt to get at the amount from the meager figures at hand, and concluded that the gross income of pilotage is \$12,000 per month, and that each commissioner draws an average of \$300 per month. That was as far as the figuring went. Conroy said considerable money was paid out by the pilots for expenses. The pilots, however, kept their own books and declared dividends to suit themselves. While some of the pilots did not work as much as others, the entire receipts were thrown into a common purse and equally divided The only control the commission had over the pilots was in relation to their conduct. Conroy declared he knew nothing of corruption in the board, saying that Commissioner Alexander's confession yesterday was a revelation.

Minneapolis, Feb. 15.—Sheriff Dreger is on his way to New Hampshire with papers for the return of A. A. Ames, the fugitive former Mayor of Minneapolis, who defaulted his ball of 110,000 and fied to Kentucky and lafer to Hancock, N. H., where he has been for some time. The authorities have known of his location for some time, and it was not until a peremptory order was given by Judge Harrison that steps were taken to have him returned to Minneapolis for trial.

Ames is accused of offering bribes to County Commissioners in order to have his secretary. To R. Brown, elected Sheriff to succeed former Sheriff Megarden, who was removed by the Governor for malfeasance, and also of accepting money from abandoned women. There are four of these indictments. A sixth charges him with conspiracy. Ames fled from the city in July, and for a time was at West Paden, Ind. When he was due to appear for trial he was still in Indiana, and was reported ill. Later he went to Louisville, Ky., and was under survetilance for some two weeks. Just before Sheriff Dreger arrived in Kentucky, Ames was warnad by some of his Minneapolis friends, and fled to New England. He was in Boston for a time, and later went to Hancock, where a sister of his wife resides.

It has been represented that his health was such that he could not be returned to the city except at the risk of his life. His bondsmen were the least concerned of any regarding his continued absence from the city, and they are not the persons who are defraying the expenses of the Sheriff in his purful.

Broken in spirit, a physical wreck and changed probably beyond recogni-

that he was not locked up, but was left in charge of a deputy to await the arrival of officers from Minneapolis. After his arrest, however, Ames communicated with former United States District Attorney Hamblatt of Nashua, and obtained his services for a fight which, he says, he will make against extradition. Ames has been here for several weeks, although his presence was not known outside of the home of Rev. C. H. Chapin, who received and, sheltered him. Mrs. Chapin is a sister of the woman who accompanied Dr. Ames, and who is supposed to be his wife. The knowledge of his relationship probably led to his detection. Sheriff Doane received a communication from Chief of Police Gregor of Minneapolis, asking him to go to Hancock and see if Ames had sought refuge at the home of his sister-in-law. The Sheriff came here, and after an investigation, placed Ames under arrest this afternoon.

The Sheriff came here, and after an investigation, placed Ames under arrest this afternoon.

The prisoner is reported to have declared this afternoon that if he were a well man he would return to his home and face the charges, but that under the circumstances he would make a desperate fight. Attorney Hamblatt has not yet seen his client, but will come here tomorrow. Hamblatt was informed today that Dr. Ames was on the verge of a collapse. Dr. Ames is wonderfully changed from the description of him sent out by the Minneapolis police. He has grown a full beard, and his hair is almost white. He is 62 years of age, but he looks over 70. His flesh is much wasted away, and from a physical standpoint he is helpless.

Just how long the parsonage has protected the prisoner and his wife is not known, and none of the family today was inclined to talk. It is believed, however, that Minneapolis detectives who followed him to Boston were thrown off the track there, and that he came directly to this town. Before going to Boston, he was reported to have been in Louisville, Ky, and West Baden, Ind., and it is thought that he came East from the latter place.

As soon as the Minneapolis officers reach here, and they are expected Tuesday, the matter of Dr. Ames's extradition will be taken up before the Governor and counsel. Developments tonight indicate that Dr. Ames still has many friends and abundant financial resources, and that every move to bring him to trial in Minneapolis will be bitterly contested.

ANTI-TRUST LEGISLATION.

TTORNEY-GENERAL'S REMARKS

ATTORNEY-GENERAL'S REMARKS.

IBY THE ASSOCIATED PRESS-P.M.1

WASHINGTON, Feb. 15.—Atty-Gen.

Knox, who is known to have prepared the important features of the Anti-Trust bills now enacted into law, on being asked as to how they were regarded by the administration, said:

"The legislation affecting the trusts passed at this session of Congress is satisfactory to the administration, and the prompt response to the President's requests is highly gratifying. A long stride in advance has been accomplished, and the promises of last fall have been made good.

"The giving and taking of railroad rebates is now prohibited by a law capable of effective enforcement against corporations as well as individuals, and the courts of the United States are clothed with furisdiction to restrain and punish violations. The act creating the Department of Commerce vests in that department complete authority to investigate the organisation and business methods of corporations engaged in interstate and foreign commerce, and to that end to compel the testimony of persons having the desired knowledge. The legislation is concise business methods of corporations engaged in interstate and foreign commerce, and to that end to compel the testimony of persons having the desired knowledge. The legislation is concise in its terms, but comprehensive in its scope. Under its provisions a fair opportunity will be afforded to test the effect upon the tendency toward industrial monopoly of its guarantees of no favors for the great producer as against the small one. Discretion is lodged in the President as to the publication of facts useful to be publicly known, and a wise administration of the law promises ill that is helpful and nothing that is harmful.

"The law to expedite the hearing of cases and giving an appeal directly to the Supreme Court from the court of the first instance assures within a reasonable time authoritative decisions upon important pending questions, in the knowledge of which future legislation, if necessary, can be confidently framed.

"Upon the whole, the situation is eminently satisfactory and is the result of concessions, modifications of views and forms of expressions upon the part of many earneet and thoughtful men, who have endeavored within a brief session to meet a rational public de-

sul Springer and some representatives of the United States army were present.

A United States quartermasters' launch led the way to the wreck, followed by two small steamers loaded with Americans, and numerous little craft. All about the harbor American and Cuban flags were flying at half-mast. The strains of the dead march played by the band of the United States artillery corps floated across the water as the procession made its way to the Maine. After completing the decoration of the forlorn wreck the boats clustered around the quartermaster's launch, the awning deck of which was utilized as a platform. After prayer offered by Rev. Mr. McPherson, Gen. Nufles, the Governor of Havana prevince, who also is the president of the Cuban veterans' Association, spoke in Spanish to the effect that the Cuban veterans would never permit such an occasion to pass without testifying their regard for those whom the Cubans were proud to regard as comrades.

Ernest Conant delivered the memorial address. He paid a tribute to the victims, but commended the mutual respect now existing between those who, for a brief period, fought each other and in his reference to the late Admiral, Cervera. Other speakers urged the cooperation of Cubans. Spaniayds and Americans in working out Cuba's destiny. Theceremony concluded with the sounding of "taps."

THE NEW MAINE.

IBY THE ASSOCIATED PRESS—P.NM
PHILADELPHIA, Feb. 15.—The new battleship Maine, built to replace the warship of the same name which, five years ago today, sank in the harbor of Havana as the result of a submarine explosion, today left her dock at the League Island navy yard and anchored in midstream. Tomorrow she will proceed down the Delaware River on her first official assignment, that of joining the North Atlantic squadrom.

The Maine is commanded by Capt. Loutse and is manned by her full complement of 640 seamen and marines.

PEMBERTON SMITH, president of the New York Car Wheel Works, in a recent paper on "Cast Ireh Wheels to Meet Today's Requirements," published in the Rathway Age, says he is reminded very forefoly of the increased severity of these requirements, as compared with those of only ten years ago. "Let us take a hasty glance at the conditions as they existed then, as compared with those of today," says he.

"In the first place, the majority of freight cars in daily use were of 40,000 pounds capacity or under. Probably not over 33 per cent. were of 60,000 pounds' capacity, which was the maximum.

"The wheels of ten years ago weighed as pounds, and as there were eight wheels to every car, the maximum wheel load was only 11,000 pounds, and the average wheel load not over \$000 pounds. The brakes, as shown above, were only applied at infrequent intervals, and the heating action, due to orake pressure was much less severe, whig to the fact that less pressures were required to bring a train to rest it the speeds then in voque.

## QUICK SHOEMAKING.

MARVELOUS RECORD MADE. A pair of women's shoes, made in Lynn, Mass., to establish a record for rapid shoemaking, required fifty-seven different operations, and the use of forty-two machines and 100 pieces. All these parts were assembled and made into a graceful pair of shoes, ready to wear, in thirteen minutes.

## RAILWAY SPEED.

ALMOST TWO MILES A MINUTE.
Previous records for runs of more than a mile, were broken by the Empire State Express train of the New York Central and Hudson River Railroad, on January 29. The train covered 7.29 miles, between Palmyra and Macedon, N. Y., in four minutes flat, or at a speed of 109.25 miles an hour. This record was made with the regular train of four cars. The engine attached to the train was a new one, and the entire run of 202 miles between Albany and Buffalo was accomplished in 255 minutes.

FIGURES FROM FRANCE. United States Consul Thornwell Haynes at Rouen reports to the State Department at Washington as follows: There are at present in France 333 sugar factories distributed in twenty-three departments. The most important—about twelve—produce annually 100,000 sacks each. Four produce more than 200,000 sacks each. 190,000 sacks each. Four produce more than 200,000 sacks each. A sack contains 220.46 pounds. These four largest sugar factories are situated at Pont d'Ardres (Pas de Calais), at d'Abbeville, at d'Escandoeuvres, near Cambrai, and at Villenoy, near Meaux, All the factories of France manufactured, from 1900 to 1901, over 1,100,000 tons of sugar. This necessitated 8,700,000 tons of beet roots, occupying for cultivation more than 741,300 acres.

As to the harvest of 1902-3, although there is a considerable diminution in the weight of the beet roots and the yield of sugar there is a considerable sugmentation in the yield of rofined sugar.

at most, on account of the difficulty experienced in preserving the beet root, the factories opening in October, and closing in December. Because of this necessity, the importance of a factory depends upon the quantity of beets it can procure daily by land or water transport. To increase this supply, the beets are now grated not only at the factory, but also in special establishments erected where the beets are raised, whence the juice is conducted through underground pipes to the factory. Some French factories are fed by as many as fifteen of these establishments, situated within a radius of half a mile to two miles.

"Furlough" not an Animal.

The word "furlough" occurred in a reading lesson of a primary grade in one of our public schools. The teacher asked: "Does any little boy or girl know the meaning of the word "furlough?" Whereupon, one small hand was raised and shaken vigorously in the eagerness of the little urchin to display his knowledge, and when permitted by the teacher to do so, he grose, and with the greatest assurance, said: "Furlough means a mule." Not a whit disturbed at the teacher's "Oh, no it doesn't," the small boy confidently answered: "I have the book at home that says so." Then the teacher told him he might bring the book to school and show it to her.

HIGHLAND PARK.

A large and enthusiastic meeting of the Highland Park Improvement Association was held in the office of Poor & Wing, No. 5134 Pasadena avenue. Tuesday evening. The association unanimously adopted the following resolution regarding the Councilman from this Ward:

'On account of the great assistance rendered the citizens of the First Ward by their Councilman, Mr. Owen Mc-Aleer, in their attempt to secure transfers for a section hitherto without this privilege, we, the members of the Highland Park Improvement Association, hereby tender him our sincerest thanks for his efforts in behalf of the residents of this ward. He has stood out alone against the entire Council for what he considered right and just to his constituents, and we understand he intends to maintain the stand he has taken until relief is given. Therefore, we, as citizes of the First Ward, appeal, not only to the clitzens of our own Ward, but to the entire city, to support a man who is fearless in doing his duty."

The citizens of Highland Park and Garvanza are determined to press the question of the issuance of transfers to the end, and another meeting of citizens will be held this week to discuss the matter and other general intereests.

Real estate men report the past month as being the best for business since midsummer, and the demand for Highland Park properties is largely for the purpose of securing home sites for the purchasers, and the immediate erection of homes. It is estimated that nine-tenths of the sales mean new residences, and that these properties are thus taken permanently out of the market. The improvement of Pasadena avenue its entire length is looked upon as one of the most important factors in augmenting the growth of this territory, and all the side streets are to be improved as rapidly as possible under legal regulations.

# UNIVERSITY.

UNIVERSITY.

The weeds were removed from the college campus Saturday and the grounds harrowed. The baseball field will be laid out and rolled during the present week, so that practice may be begun immediately after the field meet with Pomona on the 23d inst. Much interest is manifested in this department this year, and it is expected that a much stronger team will be put out than for several seasons past. As in other branches of college sport this season the university expects to draw many of her best men from the professional departments.

The members of the Epworth League of the Methodist Church held their annual banquet in the dining-room of the Church last Friday night. The rooms were tastily decorated in red and green. Rev. Dr. E. A. Healy acted as toastmaster and toasts were responded to by Luther Rice, Maynard M. Beckwith, Mrs. J. W. Whittington, W. C. Weld and Miss Helen Merriman.

At the chapel hour last Wednesday Manager Rice of the track team asked for \$40 for equipment. A subscription was taken and \$50 was secured, showing that the student body has much confidence in their track men this year and believe they have a good chance to win.

Work was commenced last week on the improvement of Thirty-ninth street from Vermont avenue to Santa Monica avenue. There is a right way and a wrong way of doing this work. The right way is to tamp the earth in solidly as the

practically even when the work is finhed. The wrong way (which is a lit-e easier and a little less expensive han the right way,) is to fill the trench

partly full of loose dirt, then to flood it with water, and complete the job

by shoveling in more loose dirt, finish-ing by piling the dirt up in a ridge over the trench five or six inches higher than the surface of the street, upon the

theory that it will be beaten down to

sound is demonstrated by an inspection of streets where this sort of slipshod work has been done. There are miles of

It is five years since the destruction of the battleship Maine in the harbor of Havana. Five years ago today the United States was stirred from center

to circumference by that awful trag-edy, which cost the nation the lives of

so many brave men. Although yester-day was the anniversary of that mem-orable disaster, it was not until the morning after that the American peo-

ple were advised thereof. We all re-

gallant fellows of the American navy who went down with her to everlast-ing glory.

## WIDENING WOMAN'S SPHERE

Two stories which appeared in column of The Times on Friday lead the intelligent reader to more put that time-honored ques-"Whither are we drifting?" One on Senttle, and tells of two young en, belonging, it is said, to good lies of that place, who put on attire, masked their faces, armed

The dispatch says:

"Although the young women who committed the robbery were caught in the act and the police told, no argests were made. Detectives called at the house while the feminine thuss were there, took them to their homes, but made no arrests; moreover, they suppressed the story. Neither Mrs. Reeves nor the police will tell who the robbers were."

Tound a succession of "chuck holes" or ridges, marking the places where service connections have been made. ## M ORE STRENGTE TO HIS ARM

Street Superintendent Werdin ap-pears to be in sure-enough earnest in his efforts to secure the removal of unand more sails story conditions generally in the care of the streets. The people of this municipality, almost in one voice, will echo the sentiment, "more strength to his arm."

The Council should stand back of Superintendent Werdin in his efforts for improved conditions in his department. The Mayor should, and he doubt-

We are constantly inviting large progress, more extensive in character than in any other city of its size in the world. Improvements of all kinds are going forward at an unprecedented rate, and these improvements necessitate more or less tearing up of the streets, for one purpose or another. Under these circumstances it would be unreasonable to expect the streets to be kept continuously in an ideal condition. It will be enough if all needless abstructions be avoided; if all streets form up for laying water and gas pipes, electrical conduits, sewers, etc., be restored to as good condition as before; if the asphalt streets be kept freasonably clean; and if the graded streets be properly sprinkled throughout the dry season.

One serious abuse which has been tolerated in the past should be stopped as soon as the Street Superintendent can get around to it; and if he lacks sufficient power under existing ordinances to stop the abuse, it will be the duty of the Council to enlarge his automatic to have the superintendent can get around to it; and if he lacks sufficient power under existing ordinances to stop the abuse, it will be the duty of the Council to enlarge his automatic to hold their sessions in the city, without taking any steps to afford the adequate accommodations when they get here; all of which is entirely incorrect. Yesterday morning in St. John's Episcopal Church, the rector, Rev. B. W. R. Tayler, preached from the text: "But God forbid that I should glory, save in the tross of our Lord Jesus Christ, by whom the world is crucified unto

me, and I unto the world."—Galatians vi. 14. He said, in part.

"As the Lenten season is gradually but surely drawing near, with its awful climax of Good Friday, the shadow of the cross falls asiant our pathway with clearer outline and more vivid distinctness. I speak to you this morn-

with clearer outline and more vivid distinctness. I speak to you this morning of the cross; what it means to us and to the world; how it has transformed human life and human history; how it has illumined with its never-ceasing light the darkest corners of earth; how its simple figure of two beams of wood, plain, somber, inartistic, rude, is nevertheless the most glorious thing in history, in progress, in religious life.

"In the cross of Christ I glory, "Towering o'er the wrecks of time; All the light of sacred story Gathers round its head sublime."

"It is not merely the wood of the cross, or its shape or its figure, but what the cross stands for in human life which makes it all that it is to you and to me. If we have never felt its power in our lives it is then nofhing more than a symbol, more or less beautiful as we choose to look at it. But if we have felt its wonderful power, if the crucified Savior, who shed His blood upon it has by that blood-shedding lifted us up into higher life and nobler ideals; if it has made us better because it has touched the secret springs of our life, so that life means more than it ever has meant before, then, whenever we look at it we see a new light and a new meaning to it.

means more than it ever has meant before, then, whenever we look at it we see a new light and a new meant ing to fit.

There are issues in the life of each person which are deep, vital and as farreaching as eternity. Ofttimes they loom up before us, they frighten and appall us. The ultimate solution of your problems and issues lies in the cross of Christ. It uplifts the downtroden, it cleaness the sinner; it is an inspiration to mankind, because of its great power over life. We daily look to it for protection and inspiration, and we rightly look to it for repose and benediction. And that which stands forever in antagonism to the cross is the power of sin. Sin with the dominant characters of the world, the fiesh and the devil interwoven into it. Unless we realize the hideousnes of sin. Its awful ravages, its deadily character, its foul pollutions, its universal reach, its destructive power, we shall never realise the necessity of clinging to the cross of Christ. We look at its measages to mankind not from sentimental considerations, but in order to be saved from sin and eternal death. "Go into yon hospital and hear the lips of one dying with a foul disease breathe sweetly:

"Jesus, my Savior, look on me For I am weary and opprest; I come to cast myself on Thee,
"And ask what has transformed a sinful life into one of such marvelous peace and hope, and learn that it is the power of the cross. It has touched a learnt and uplifted it; it has touched a heart heart and uplifted it; it has touched a heart and uplifted it; it has touched a heart and

Women of the Bible." His theme last night was "Deceitful Rebekah." He said, in part:

"The name of Rebekah stands pilloried in history, a very synonym of deceitfulness and treachery. She is an example of its methods and its folly. One of the most widely spread and common of all sins is deceitfulness. It seems to find a congenial home in many hearts, and grows with amazing rapidity, and soon becomes a consuming passion of the human soul. Its practice is aiways evil, and is end is beset with disaster and sorrow.

"The outcome of it in Rebekah's life is simply an illustration of the evil that aiways follows its practice. First of all, it broke up her home. The indications are that she was happily married till she yielded to this sin. In consequence of it, her home was broken up, and her happiness destroyed. How many happy homes have been broken up, and her happiness destroyed. How many happy homes have been broken up, and how many hearts have been wrecked upon this rock of deception. Then the old age of her husband must have been poisoned and embittered when he became aware of the deception the wife of his youth had practiced upon him. How many lives have been embittered when con-

ecious of the injury done them, because of deceit and its direful work. No pang is deeper, no poison more unrelenting than that generated by the deception of the human heart. Because of Rebekah's deception, practiced on Esau, he went away from home and married heathen women, which greatly grieved his mother. He also became infuriated at his brother. Jacob, and sought his life. Jacob fled from his brother's face in order to save his own life. Thus the maltreated son was only a source of sorrow and punishment to his mother. How often the objects of our injustice linger in our presence to rebuke us daily, and add to the burdens of our life. Sin is often an everyday punishment. Further, Rebekah was deprived of the presence of her favorite son. He flees before the anger of Erau, and never henceforth sees or cares for his mother. Surely this was a great sorrow to her who had wrought so cunningly for his advancement. But sin ever promises much and pays little. Distrusted by her husband henceforth, despised by the son, whom she had wrongsed, forsaken by the son for whom she had so skillfully deceived her faithful husband, Rebekah comes to her grave full of sorrow, the subject of much suffering, the object of little sympathy. The sense of guilt in her soul, and the burden of her forsaken old age must have borne heavily on her declining years.

"The moral of this story is self-evident: The supreme folly of deceiving and practicing wrong in every form. Be sure your sins will find you out. You will always pay the penalty of wrongdoing. There can be no evasion of the universal law of God, that the wases of in is death."

Mr. Smither will continue the series. On next Sunday evening he will discuss "Miriam, the Old Mald." scious of the injury done them, because of deceit and its direful work.

Idlenes Killed Rim.

George W. Deems of Baltimore died at the age of 70 years from worry because he was no longer permitted to work. Under the ruies of the Pennsylvania Raifroad, "Cousin" or "Capt." Deems, as he was variously called, was retired on a pension after thirty-eight years of service.

He did not want to be retired on a pension, but the officials concluded that willy nilly, Deems must take the rest and pension to which his long and faithful service entitled him.

His birthday was early in December, but Deems's plaintive pleading prevailed to the extent of allowing him to work till the end of the year. From the moment the date was set for his retirement Deems's health began to fail, and when he finally quit on Janury 1 he collapsed completely. Gradually he faded until he peacefully passed away.

Shock due to his enforced retirement was the cause given by the physicians. But the old man really was heartbroken by his separation from his work. For thirty-eight years "Cousin George" was foreman of the Mt. Vernors machine shops.

He made a record unique in the history of industry, for he worked throughout that whole period seven days in every week, and without a holiday of any kind or intermission on account of sickness. He was a perfect glutton for work, and would really rather work than sleep.

During the administration of Mayor Swann, Doems added to his work as machinist the duties of a policeman. In those days he worked at his trade during the day and patrolled his beat at night. This he kept up for about a year, when he determined to give up policeing and devote his time entirely to his trade.

Until his last illness Deems could not recall a single serious sickness. He did not count an attack of stralipox he had just before the Civil War as a

naments ever held in this section of the State.

Both teams are now in fine fettle for the struggle, and both institutions are confident of victory.

The University of Southern Califor-nia has never succeeded in defeating the defenders of the blue and white in a track meet, although on several occasions they have lost by a narrow margin.

The relay race, which counts five points, is generally conceded to the cocal institution, as they have defeated their rivals in this event every year, and have an exceptionally strong

The Pomona boys think they can win the day without this race; but a conservative estimate by the managers of the University team places his honors about even up to this strugtle, and they are basing their hopes for victory on the outcome of this race.

There are to be eleven events, including the relay. First place will count five points, second place three counts, third place one point, and the relay five points, making a total of a count five points, making a total of a count five points. Most of the first places, except in come of the sprints, are conceded to from one, but the Methodist boys hope to secure enough second and third claces, together with the relay, to win by a very close margin.

First and second places in the hurdless and shot-put are generally conceded to Pomona, but in these contests there may be surprises.

On the other hand, the 100 and 220-yard dashes are persistently claimed for the supporters of the cardinal and gold. These contests promise to be among the most hotly-contested events of the day.

The mile run promises a splendid tussie. Voorhees of Pomona is a strong and heady runner and is considered by Pomona a 'sure winner. The University also has a man whom they expect to do good work in this tussie, and give the fleet-footed Congregationalist a hard race. This new acquisition at the local college has never participated in a meet in this section, but he comes to the school with some fast records, and if he makes good, the chances for success for the University will be materially strengthened.

One of the most uncertain contests will be the role and

GAMES PLAYED TESTERDAY.

The Columbias of this city and the Alhambra team played at Fiest Park yesterday before a crowd of about seven hundred people and furnished considerable sport, although the locals won by a lop-bided score of 9 to 1. Both Gray and Crandall were wild as Indians in their delivery, but were effective when they located the plate, such fanning out nine men, and making two wild pitches.

Wolf at second for the Columbias, put up a swell game, and Raymer did aqually well for Alhambra. Crandall and Schmuck had a bad day of it and made costly bungles, but their team could not win, for Gray was effective when hits meant runs.

Beautiful weather and the promise of good racing by fast dogs drew a big crowd to the coursing park yesterday, and the sports were well pleased with the day, for the eight best hounds in this end of the State were pitted against each other in a champion stake and those not considered so good, met in the open stake.

L. Corder's Wapes won the champion stake from George Sharman's Gen. De Wett by a score of 13 to 10, after a hard struggle. New Home Boy, who won an 4500 stake in San Francisco several weeks ago, met with an accident in his course with De Wett and lost. While leading the General five lengths to the hare, he fell on a trip and was outworked after that. Boodle Boy, of whom something was expected, was fast enough to lead Wapse, but was outworked, owing to being in pocondition. Happy Scott was practical out of the stake, on account of a lin-

COLD WIND SPOILED IT. Notwithstanding the prospects of a pleasant day yesterday, those who es-

This sharp wind blew strongly at not only Ocean Park, but also at the Sharpshooters' range in East Los Angeles. At the former place, the scatter-gun men had a bluerock shoot, and the conditions may be imagined, when it is stated that a crack shot like Fanning broke only 124 out of 150 shot

COLF CHAMPIONSHIP. CONTEST THIS WEEK.

MANY EXPERTS TO COMPETE FOR THE PREMIER HONOR.

Large List of Good Players Will Be Seen on the Greens-Walter Fairbanks Will Defend His Title-Play Begins

The golf honors of Southern California for the present year will be decided this week at the Country Club course when the crack players of this end of the State will meet in championship matches. The entry list promises to be quite large, although the minor players realize what they are going up against in Fairbanks, Orr, Jewett, Frederickson, Edwards and others of almost equal ability. Still every player has a chance, for the best one does not always win.

Play will begin on Thursday and is to continue for three days, and possibly over next Sunday. The first day there will be thirty-six holes medal play, eighteen holes both morning and afternoon, with the sixteen best scores to qualify for the match play on the succeeding days. On the afternoon of Friday, it is expected that the semi-

SPORTS EXPECT A GOOD CONTEST FROM BLACK MEN.

Public Opinion Favors Johnson but He Will Meet a Dangerous Fighter in McVey-Woods-Reilly Go Possible-Carter not Barred.

While the Johnson-McVey fight is still ten days in the future, it has caused more talk in advance than any battle arranged by the Century Club for many months, although the ma-jority of sports seem to think that there will be nothing to it but Johnson. The sole cause for this belief in the new colored champion is that he is champion, and that is doubtless y he has already been made a 10-to-

new colored champion is that he is the champion, and that is doubtless why he has aiready been made a 10-to-6 favorite in the betting.

The dope shows that McVey is just as good if not better than Johnson, and he declares he will prove it when they meet. Johnson's principal opponents recently have been Russell, Childs and Martin, and in none but the Childs go did he show any great evidence of superiority. He fought seven or eight slow rounds with Russell, and went the limit with Martin. While he practically won the championship from the latter, there is really not a great amount of credit attached to the victory. Martin was always the aggressor, fought fast and strong in every round, and had a shade the best of the go in the last three rounds. Then, again, he had been accustomed to fighting six rounds for a decision around Chicago, and was under the disadvantage of coming to Los Angeles and going three times the distance with a strong, ambitious youngster.

On the other hand, McVey has fought fourteen battles, and has beaten his man every time in less than seven rounds, and hammered the giant Toothpick Kelley into submission in four. While McVey is not a fancy boxer, and may be considered clumsy, he has a hard punch in either hand, can take a lot of punishment and possesse. He bright and shining qualifications of courage, for he has not run away from anyone yet. He will most certainly mix it up with Mistah Johnsing.

How the new champion will come out of the fight is only a guess, but he has shown great frankness in saying that he would rather fight Martin twice than McCvy once, "because you nevah know what dat nigger is goin to do," as Johnson says of McCvy.

With proper attention, McVey may develop into a great fighter and he will doubtless do his best to beat Johnson. It is his one chance for future recog-

Possible March Fight.

Pessible March Fight.

It is more than possible that the March fight of the Century Club will be furnished by Reilly and Woods, if they can be brought together here. Both fighters will: jrobably ump at the chance, and the sports would go some distance to se the contest, for there could not be a better one imagined. Both are strong, hard-hitting in-fighters, with a world of power in a shortarm blow, and both fight after the same style. The fur would fly if they got together, and McCarey should sign them before some other club does. He is willing, however, that Woods should fight anywhere. McCarey is also anxious for a match between Kid Carter and Woods, and says that if Carter will meet Woods at 158 pounds at 2 o'clock, he will bet \$500 on the side. This is a chance for Carter, if he is not afraid of Woods.

COLISEUMS LEAD IN BOWLING AVERAGES.

MARBLE PALACE STILL SECOND ON TOTAL PINS.

Tournament Will Close Within Four Weeks and Players are Beginning to Exert Themselves-Averages to Date for Games and Pins.

With the bowling tournament fast drawing to a close, the players are endeavoring to better their averages

With the bowling tournament fast drawing to a close, the players are endeavoring to better their averages by high rolls, and from now on to the close of the tournament on March 12, better games may be expected than have been seen for the past two weeks. Nothing is known definitely at present as to how the players stand on individual averages, for no list has been made out by the secretary of the association for three weeks.

This delay is due to the fact that a postponed match is yet to be played between the Coliseum term and the Tufts-Lyon team, and the secretary believes the list of individual averages would be not only incomplete but unsatisfactory, with the averages of ten players out of it. Consequently, no players' percentage table will be issued until those two teams play their postponed match. It would be very easy for them to do it almost any night, in a match with the Pasadera team, nothing wornty of particular notice was done in a bowling way list week.

Flora McDonald is a bonnie lassie, with a messo-soprano voice, and her songs and speeches give one a good whiff of the heather, while Mr. Spence is not only a singer, but also a successful reader of humorous and pathetic selections. Both artists appear in full costume, and make a specialty of the old Scottish songs, tender-sweet things like the immortal "Annie Laurie" and others of equal merit. SUNDAY CLOSING

Both Sides to Be Heard at the Chiletian Church Next Sunday Evening-Ruddock & Trench Close Orange Packing-house for Time Being.

ANAHEIM. Feb. 15.—Do a majority of the citizens of this place want the saloons closed on Sundays? This is the question to be discussed at a mass meeting of citizens called for next Sunday evening in the Christian Church. It is announced that this meeting will be for the purpose of discussing a Sunday-closing ordinance, but it is open to all who are interested in the matter, either pro or con. Those in favor of open saloons on Sunday have been invited to the meeting, as well as those opposed to the Sunday liquor business. All who attend are expected to give voice to their views without restraint. No set speeches will be made at the meeting, which will be merely for an informal discussion. If it is found that a majority of the citizens are in favor of a Sunday-closing ordinance, the Board of City Trustees will be asked to pass such a law. On the other hand, if a majority of the citizens are found to favor the open saloon on Sunday, the

BEETS GROWING FINELY. The Union Sugar Company's beet crop is making fine headway since the crop is making fine headway since the recent rains, and in some places the crop is ready for the Japs to begin thinning. The company experimented with early planting last season and found it so successful that the operation has in a large measure been repeated. The company is planting about 7000 acres this season, which is nearly 1500 acres more than in previous years. On accevount of this increase, the farm work will not be completed for several months yet; in fact, on some parts of the ranch irrigation is still on, while plowing and seeding follow as rapidly as the ground will permit. The cold weather has not affected the beets.

No Such Large Increases in . County Salaries.

Carter-Savage Bill to Be Prune by Legislators.

That Twenty-six Thousand Dollars Will Prebably Be Cut in Two.

There is little probability that the County Government Bill, introduced in the State Senate by Savage, and in the Assembly by Carter, will pass in its original form. This is the bill to fix the salaries of the county officers of Los Angeles, and to provide for their office help. It provides for a straight additional expense upon our taxpayers of \$26,000 a year, and such opposition to it has developed among those who will have to pay the bills. There is little probability that those who will have to pay the bills, that it is now believed certain that there will be amendments which will educe the increase.

Not all of the members of the Lor Angeles delegation are in favor of the bill, or any measure like it. They freely assert that they will not sup-port a proposition which will cause that increased expense to the taxpaypresent form, also sate the county offi-cials all the help they really need. It is conceded that the business at the Courthouse has vastly increased, and

cials all the help they really need. It is conceded that the business at the Courthouse has vastly increased, and some of the departments are in need of more help; but to give what is needed is one thing, and to raise the annual costs \$26,000 is quite another, so many of the members think.

Word comes from Satramento that this sentiment is so strong that the bill will have to be pruned before it can be passed, and to the Los Angeles members themselves must be left that work. It is for them to say which of the proposed increases shall be cut off, and as to that they have not come to any decision.

That Walter F. X. Parker has had a hand in the matter, all along, is well known here, whatever may be the denials of the county officers. Parker himself would not deny his interest in the bill, if he were to be asked about it.

Some of the members think that the bill was so framed, as to permit of heavy reductions being made. This

about it.

Some of the members think that the bill was so framed, as to permit of heavy reductions being made. This would give some member a chance to pose as a reformer, by announcing that he had caused the reductions to be made, when all along he knew that that was one purpose of the bill. This feature of the matter has not developed as yet, but that the bill will be changed in many particulars, is now a certain.

One particular accounts the bill will be a certain.

certain.

One particular provision in the bill which will be attacked at Sacramento is that in which it provides that the salary of the Deputy Coroner shall be increased to \$300 per month, and that the Coroner shall be given a clerk.

This is a part of the bill which Walter Parker would very much like to destructive to the grain fields hereabouts. Six fine work horses straying in the neighborhood of the grain ate the poisoned balt and died.

## MANY MURPHYISMS.

The Gospel Temperance Apostl Speaks to Vast Crowd in Blanchard's Hall With Exceptional Eloquence. Francis Murphy preached a gospe emperance sermon in Blanchard Hai temperance sermon in Blanchard Hall last night, that for true eloquence he has probably never surpassed in any previous effort. The hall was packed with an audience, two-thirds of who were men, and the veteran pleader's address was many times interrupted

were men, and the veteran pléader's address was many times interrupted with applause.

The keynote of the talk was illustrated in the story of the leper, who appealed to Christ that he be made whole, and the Master, with the answer "I will," touched him and made him whole.

Murphy's beautiful tribute to the Apostle Paul, and to the valiant ministers of the present day, was one of the finest pasages, and was received with a burst of applause.

"This work is going right on," he said. "Some people think all they have to say is, "Now kill this fellow and the thing is over," but this work is going right on. These meetings are not for drunkards; they're to repair people—we have a repair shop here. If you were to hold a meeting here to reform liars, how many people do you suppose would come?"

"Murphylsms" bristled out all through the talk, illustrating his motto of "Malice toward none." He said:

"When a fellow goes fishing, he doesn't stone the pond. He keeps right at it with the right kind of bait, and is sattsfied if he just gets a bite.

"I once knew a town that spent

days trying to catch a certain trout, but's drummer came along, got up before breakfast and went out and caught the fish.

"I'd sooner live in a world of trouble with the woman I love, than in heaven, if there was nothing but men.

"Don't come home from the shop in the evening, with all the broken rivets in your head—leave them in the shop." Excellent solos were sung by Miss Ferris and Miss Goodwin, and a number of men signed the pledge at the close of the meeting.

A Murphy prayer meeting organization will be formed at the weekly prayer meeting, which will be held on next Thursday evening, at the home of Z. C. Angevine, No. 526½ South Alvarado street.

of those of the upper class Chinese women; Miss Scoville appeared as a Spanish dancer, with tambourine and mantilla; Miss Martha Behr was charming in an Empire gown of blue satin, exquisitely embroidered; Miss Maud Daggett was a coquettish Gypsy girl in gay silks and numerous neck-laces and adornments; Mrs. Lyman was a dainty French nurse mald in a black satin costume; Miss Key, a Chinese lady of high caste, in black and yellew, gorgeously embroidered; Miss Aull impersonated to perfection an Indian girl, and her costume was perfect as to detail; Miss Brace was a pretty tambourine girl in a gay costume of red and yellow; Miss Holmes as a Colonial dame was beautiful, stately and elegantly gowned; Miss Green in an old court costume was a dainty "Lady of Quality:" Miss Barbara Miller impersonated the "Queen of Hearts:" Miss Luhn, "Morning:" Miss Lidden, a wood violet, and her costume of green, with fern and violet garniture, was extremely fetching: Miss Biulm made a lovely "Janice Meredith," easily recognized. Among the men John Holmes carried off the paim as "John Chinaman," although Kingsley Macomber's 'costume, a "Highland laddie," was the most perfect and artistic of the evening; J. H. Holmes and Walter Elsher made the fun, one as a fat boy and the other as a giddy school girl; John Daggett was fine personated a "Gentleman of the Old School;" Roy Macomber was imposing in knee breeches and white perruke, a veritable courtier; Mr. Dodge was a clown fresh from the circus, and had a close following in C. C. West, a court jester; F. H. Kane was a fine Spanish caballero, and Dr. Leslic frightened the girls as one of "Teddy's Terrors;" Mr. Lovell in buckskiu and tinsel was a true vacquero; George Watson was a dangerous Scanish cavalier, and there were plenty of others too numerous to mention.

Supper was served at 11 and dancing kept up until a late hour.

aiding his legs in flight, he was tatally shot by Patrolman Sherman Baker on a vacant lot near Alpine and Buena Vista streets.

A few minutes before 3 o'clock Patrolmen Baker and Leon noticed a man sneak out of the back yard of Mrs.

ported yesterday, and the good general description of the criminal, furnished by a woman, who awoke to discover him crouching beside her bed.

The only description of the pestiferously active and mysterious sneak thief secured up to yesterday was that of J. A. Green, who was held up in bed, at the Highland Villa on North Olive and First streets, and compelled at the point of a revolver to see his possessions vanish. This robber was described as being of distinguished stature, pale countenance, and dressed throughout in black.

It had been fondly imagined that the tall man was a solitary, sneering genius, suffering with ennul at the perfection of his perverted art, and no imitator. The police have ad-

CROUCHED BY WOMAN'S BED. At 4 o'clock yesterday morning; Mrs. T. J. Burk, who lives in a second-story flat at No. 519 East Tenth street, T. J. Burk, who lives in a secondstory flat at No. 519 East Tenth street,
awoke to find a man crouching at the
side of her bed. She thought it was
her husband, and, as they occupy separate beds in the same room, she had
no means of finding out as quickly
as she wished, except by asking.
So she said: "What's the matter?"
"its all right," was the answer in
an unfamiliar voice. "Keep quiet."
Mrs. Burk kept quiet and her husband slept peacefully. But the burglar
slipped quietly from the room with a
pair of Mr. Burk's trousers in tow. He
gilded noiselessly out of the door by
which he had entered.

Mrs. Burk described the man to the
police as being of medium size and
dressed in slouch hat, dark sack coat
and pants of a lighter shade. He was
also smooth-shaven.

Mr. Burk is positive that he locked
the door at night, and so the job is put
down to the key-nipper man's credit.

OTHER CLEVER ROBS. Whether the same stamp of burgla obbed William Smith and J. P. Moore

Whether the same stamp of burglar robbed William Smith and J. P., Moore, who room together at No. 228 Bast Second street, or whether they were the victims of a ghost does not appear in the story they told the police yesterday. They went to bed at 10 o'clock Saturday night, they said, Smith with a purse containing 439 tucked under his pillow, and Moore with \$10 in a pocket-book reposing lovingly in the pocket of his "nighty."

When they awoke at 7 o'clock Smith's money was gone and Moore's money was gone. How did it go?

While W. G. He found \$19 in a pair of trousers, took it and left.

Yesterday morning J. O. Downing of No. 1025 Wall street awoke bereft of his trousers. A search for them disclosed them lying lonesomely in the back yard. Downing looked again and found that \$4.30 had been taken from the pockets—the unmistakable work of a key-nipper man.

This will undoubtedly be changed to petty larcent, as Jones was carrying when arrested a length of hose, a siedge harmer and a red ax. The ax has been identified as having been stolen.

Recing Ordinance.

The petition of J. W. Brooks for permission to sell pools at Agricultural Park, will probably be considered by the City Council today. If it is granted it is hardfy likely that a race meeting could be held this spring, for it is said that the legal preliminaries necessary to go through with before a new ordinance permitting bookmaking at the track, could be put into effect, would consume two months time.

Endersed Carrie.

Just at the close of the annual Frances Willard memorial service, held in the First Baptist Church, under the auspices of the W.C.T.U. last evening, a man arone from a seat and asked point blank what the ladies thought of froilcoome Carrie Nation. Mrs. Hester T. Griffith, who presided, said that while Mrs. Nation's methods might not meet the approval of some, they were certainly works done in the right apirit, and that, further, among a class of people who could only be reached by violent performances. Mrs. Mary Tongler, national organizer, delivered the memorial address on Miss Willard's life and character, and deveral of the prominent local temperance workers spoke briefly. A fair audience was present.

#### WANT TO ABOLISH ANOTHER BEER GARDEN.

MOVEMENT TO PURCHASE VIENNA PARK FOR THE CITY.

Residents of the Southwest Want a Public Playground and are not Infatuated with the Idea of Supporting

A movement is on foot in the south-western part of the city to purchase the Vienna Park beer garden and other adjacent property, aggregating some thirty or forty acres, transform it into a public park and deed it to the mu-nicipality.

The prime movers are the members of the recently-organized Charles Vic-

tor Hall Improvement Society, of which F. E. Butler of No. 2627 Dalton

It is said that Frederick Rindge and other wealthy property owners in the vicinity of the saloon are impressed with the possibility of changing the beer garden into a public park, and are willing to lend the project their assistance.

The need of a public park in the southwest has been keenly felt for years, and the recent rapid growth in the Fourth and Fifth wards has added greatly to the demand for such an improvement.

Vienna Park was at one time a notorious joint, and the scene of many merry revels; but of hite years it has assumed a more quiet and respectable tone.

SAN DIEGO, Feb. 15.—Dr. W. W.

Campbell has been carrying on a scientific work, which has resulted in the final correction of the lenses and mirror to be used in the D. O. Mills reflecting telescope, which is to form a part of the Lick Observatory, to be established in Chile. The lenses, which will be used in watching the stars will be forwarded this week.

During the hearing yesterday in the contested County Surveyor case, Judge Torrance intimated that if Mr. Ward was performing the duties of the office, he was entitled to the salary for the month of January.

At yesterday's meeting of the Farmers' Club, Mrs. Coultson and Horticultural Commissioner Hall were the principal speakers, the former speaking on the beauty of common things in country life, and the latter of the need of cooperation among farmers. Miss Sessions discussed the vines and shrubs, which grow successfully in this section.

## DANGEROUS STOWAWAYS.

ALGIERS, Feb. 15.—The Justrian steamer Margherita, Trieste and Girgenta, February 5, for New York, put in here today, and landed eighteen Sicilian stowaways, who smuggled themselves aboard at Palermo. Maddened by threats, the stowaways had armed themselves with knives and appeared on the deck, where they threatened to attack the officers. Muskets were dealt out to the crew, who succeeded in overawing the Sicilians. The steamer then headed for Aigiers, where the stowaways were handed over to the Italian Consul. The Margherita proceeded on her voyage two days late.
